As Christians we are to become keenly aware of God's provision for change. In examining the Scriptures We will discover that God speaks directly and indirectly to the issue(s) that keep us from growing spiritually and the change that He wants to bring about. The more we study God's Word with His purposes in mind the clearer it will become what it is that is keeping us from experiencing the transformed life. How then will we experience change?

I. The Goal, CHANGE. A transformed, conformed, sanctified life.

II. The Problem, THE HEART.

III. The Solution, SANCTIFICATION

IV. The Result, SPIRITUAL MATURITY
